You are here | Rahu-Moon | Worldly Expansion

Mahadasha 2011-01-06 to 2029-01-05. Antardasha Moon: 2026-06-19 to 2027-12-19. Rahu Maha Dasha is a period of ambition, worldly desire, foreign connections, and rapid material expansion - often accompanied by confusion about what truly matters. Rahu is the North Node: it pulls you toward new experiences, often at the cost of familiar comfort.

HOW DASHA WORKS

Vimshottari Dasha is the Vedic planetary period system spanning 120 years. Your starting Mahadasha is set from the Moon's nakshatra at birth; from there the sequence of major periods (Ketu, Venus, Sun, Moon, Mars, Rahu, Jupiter, Saturn, Mercury) unfolds in order. This report maps major life chapters (Mahadasha), the season inside your current chapter (Antardasha), and practical ways to work with timing rather than fear it.

CHART ANCHORS

Moon sign	Cancer
Nakshatra	Rohini pada 2
Rising	Virgo
Sun	Leo

DASHA ORIGIN | ROHINI

Rohini - the cosmic garden. You grow beauty, abundance, and deep nourishment wherever you are planted.

Nakshatra ruler: Moon (helps set the starting period logic)

Gift: Creative abundance, magnetic attractiveness, and the ability to grow and sustain what is beautiful. The most fertile Nakshatra.

Practice: Weekly: grow something - a plant, a project, a relationship.

YOUR CURRENT CHAPTER

RAHU MAHADASHA

2011-01-06 to 2029-01-05 | Worldly Expansion

Rahu Maha Dasha is a period of ambition, worldly desire, foreign connections, and rapid material expansion - often accompanied by confusion about what truly matters. Rahu is the North Node: it pulls you toward new experiences, often at the cost of familiar comfort.

Themes: Ambition, foreign connections, technology, sudden gains, materialism, illusion, obsession, sudden changes.

Opportunities

Rapid rise in career or worldly status, foreign travel or living, technological innovation, unconventional paths to success, expanding beyond the familiar.

Cautions

Rahu can create illusion - things that appear as opportunities may be distractions. Guard against obsession, excess, and losing touch with spiritual foundation.

Timing guidance: Early Rahu Dasha: rapid changes and new environments. Middle: peak of worldly engagement. Later: beginning to sense what truly matters beneath the ambition.

Practice: Regular grounding: time in nature, spiritual practice, meditation. Weekly question: "Is this real or is this just Rahu's excitement?" Monthly: check alignment with deeper values.

HOW TO USE THIS REPORT

Mahadasha sets the climate of a multi-year chapter. Antardasha is the season inside that climate - often where job shifts, relationship turns, and skill seasons actually show up. Supportive periods favor launches and visibility; heavier periods favor skill-building, repair, and structure. Pair Dasha with your natal placements and current transits. Free will remains yours.

WORKING PRINCIPLES

- * Do not make fear-based decisions solely because a period is 'hard' - hard periods often build the skills soft periods spend.
- * Do not over-promise yourself during easy periods - excess is as educational as scarcity.
- * Track results quarterly: what opened, what closed, what skill got stronger.
- * Return to this report at each Mahadasha or major Antardasha shift.
